OVERVIEW

With solid experience in full-stack development and systems and network administration, I have cultivated technical and creative expertise in designing high-performance and scalable digital solutions. I'm highly committed to continuous learning and growth, always seeking new challenges and opportunities to expand my skill set and enhance the visibility of the companies I work with.

EDUCATION

ENGINEER IN COMPUTER SCIENCE & MULTIMEDIA

EiCnam / Cnam-Enjmin
2027

WEB DEVELOPER BACHELOR

HETIC
2023

PROJECT MANAGER

BACHELOR (w/ Motion Design spe.)

Digital Campus Lyon
2022

AAS MULTIMEDIA TECHNOLOGIES

Université Gustave Eiffel
2021

WORK EXPERIENCE

SOFTWARE ENGINEER

Cnam Nouvelle-Aquitaine

2023-2027

As a Software Engineer for the Cnam-Enjmin school, I maintained and modernized its critical digital infrastructure by developing and designing secure, high-traffic web applications and microservices to optimize complex administrative and educational workflows.

- Architected full-stack applications and microservices (Node.js, SolidJS, PostgreSQL)
- Engineered robust API security and deployment lifecycles (Docker, GitLab CI/CD)
- Mentored new developers, led cross-departmental collaboration

SOFTWARE DEVELOPER

desk.community

2022-2023

As a Full-stack developer at desk.community, I helped building the coworking management SaaS using Nuxt/Vue and Firebase, with performance and UX best practices in mind. I worked on Android and iOS features with embedded AI technology.

WEB DEVELOPER & UX/UI DESIGNER

Partir.com

2021-2022

Web Developer Apprenticeship: Led the complete redesign of Partir.com, significantly improving mobile ergonomics. I developed the rental comparison tool, a 'My Trips' section, and optimized code with various modern practices (CDN, minification, ...)

FRONT-END DEVELOPMENT INTERN

EMGCU Laboratory

2021-2021

As a Front-End developer, I was in charge of improving and updating the laboratory website layout and design, using the Typo3 CMS. I also produced new illustrations and communication materials, in collaboration with the web team and other contributors.

SKILLS

PROFESSIONAL SKILLS

- Project Management
- Mentorship
- Cooperation Mindset
- Adaptability
- Creativity, problem-solving

TECHNICAL SKILLS

- Adobe Design Suite
- TS, Python, C#, PHP, SQL
- DevOps : GitLab, Docker, KVM
- Proxmox Server Management
